Scouting The Shops

With Sally

That's the trouble with education, once you start it, you can't stop it. So here we are again with the Editor's scissors and the Encyclopedia. You read the funniest things in a book like that!

Please Pass The Ham

A dish that once served you will undoubtedly be urged to repeat is ham baked in wine. Select a center-cut ham steak about two inches thick. Use a dry white wine and let the ham soak in it for about three hours. Then spread on the ham a little honey, a dash of cinnamon and cloves and bake slowly in the wine until done.

We tried this on John yesterday and were very happy because we thought he'd say, "Mmmm . . . can Sally cook!" But did he! No! He said, "Mmmm . . . what wonderful wine Joe's Market sells!"

For Thickening

Raw egg yolks beaten and mixed with a little cream make a much more delicate thickening for soups and sauces than flour.

That is very nice, but we have other things to think about. We're going to have our picture taken in our own sitting room tomorrow which is ours and John's tenth anniversary . . . Dale A. Hovey, Daly City photographer, has already said he'd come.

Fishing For A Salad

The American diet is frequently deficient in calcium, iron, copper and iodine. The ancient Greeks used seaweed, which contains a large amount of iodine, to prevent goiter. Today, iodine is incorporated in table salt.

Ancient Greeks ate awfully silly things, anyway, in those days. Nectar and ambrosia and now seaweed! They sound poetic, but still, as for us, we like good old bacon and eggs, fresh from Robertson's Egg store.

Ice Cream

To produce the ice cream eaten annually in this country more than one and a half billion quarts of milk are required, almost a

Tyrone Power has the most famous and colorful of all screen roles in "The Mark of Zorro," 20th Century-Fox production which is now playing at the Daly City theatre. Playing a masked adventurer, whose jagged sword mark strikes terror to every heart but one in the most exciting days of Old California; Tyrone is shown at the lower left with Linda Darnell. Upper left is one of the many thrilling scenes.

Home Equality

An extensive survey taken at Pasadena, Calif., relative to father's place in the home, revealed that the majority of mothers believe if father will just keep out of the kitchen he isn't a bad person to help out along other lines of housework. The final conclusion was that America is achieving equality in home making —meaning that father is doing an increasing share of the "housework."

Wild Bill's Grave

Wild Bill Hickok's grave and that of the equally famous Calamity Jane, in the old "Boot Hill cemetery" above Deadwood Gulch, Deadwood, S. D., are visited annually by thousands of tourists.

Russian Wild Boars

Most of the Russian wild boar enumerated by game census-takers in America are in Graham county, North Carolina. They were imported by an Englishman who planned a magnificent game preserve.

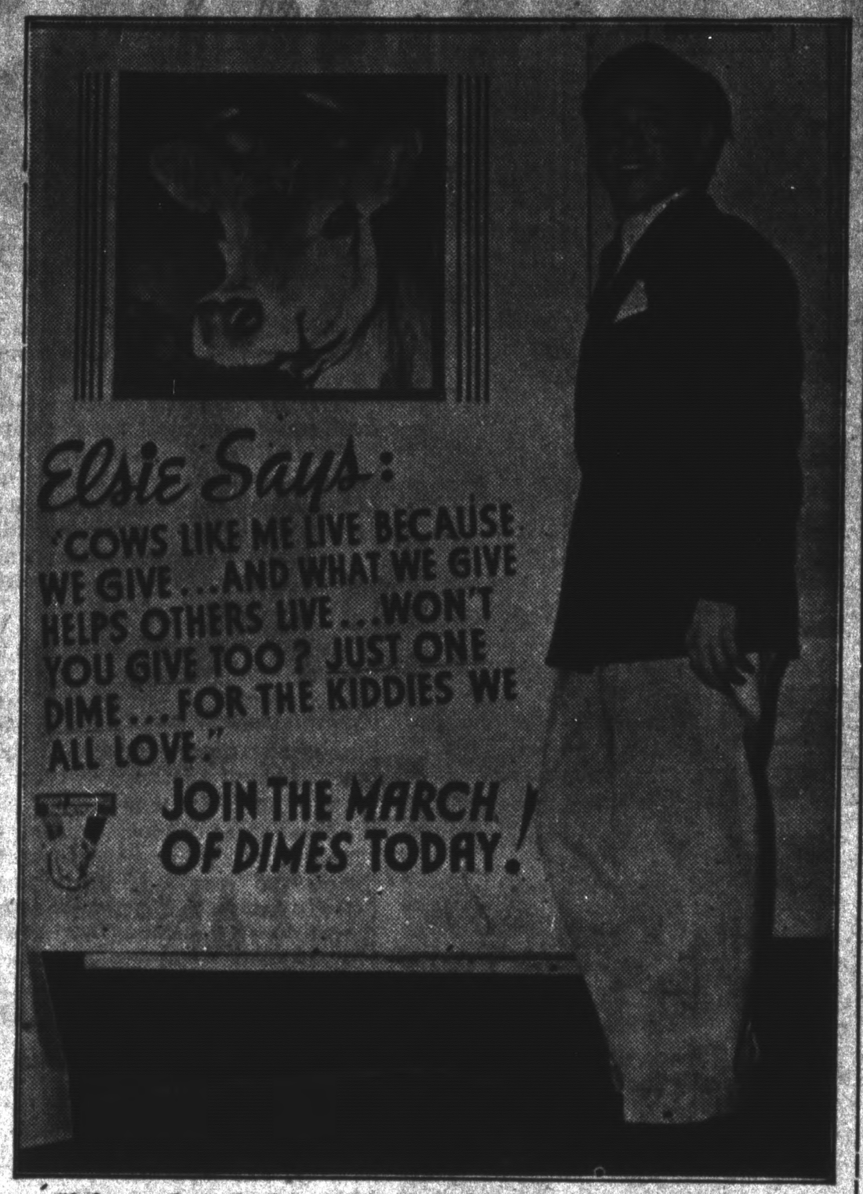
DALY CITY SHOPPING NEWS

Published Every Thursday by Daly City Record
3317 SAN JOSE AVE. Telephone RANDOLPH 3215

ALBERT H. BOYNTON — — — — — — — Editor and Publisher



Giving up her electrically-heated stall to make personal appearances in several parts of the country for the MARCH OF DIMES, Elsie, world-famous movie star cow is really blowing both her horns to attract the attention of the nation to the annual drive for funds for the National Infantile Paralysis Foundation.

Asked by the press for a few remarks, Elsie stated that pennies, nickels and dimes, when added together, make a lot of cents—common sense, for the common good of all children.

Elsie, also secured the aid of Mickey Rooney, famous Metro-Goldwyn-Mayer screen star, who is also a friend of the nation's kiddies, to aid the cause.

Auctioneer Is Boss

American courts have held that an auctioneer is not compelled to accept the highest bid, according to Collier's. In a Minnesota case, a house was sold to the first bidder for $675 after the second and only other bidder had offered $680. The auctioneer refused to consider such a trifling increase. So the second bidder sued but lost his case on the ground that no contract exists until the offer to purchase is accepted by the auctioneer.

Shanghai Child Refugees

Smiling for the first time in months, 400 child refugees in Shanghai were transferred to Chekiang province where they are beginning life anew.

New Tree Pruner

A new tree pruner, operating on hydraulic pressure, easily cuts limbs up to two inches thick. Extension poles enable the operator to remove a limb 20 feet from the ground.

Development of Bicycle

The general idea of the bicycle is suggested in ancient carvings, but the machine was not successfully developed until the Nineteenth century.

Old Hatteras Lighthouse

Old Hatteras lighthouse, off the Atlantic coast of the United States, was built one mile from high water in 1570, but now the tides come within a few yards of the base.

Weed Growth

Proof of the tremendous strength of growing weeds was shown at Winnipeg, Manitoba, when a piece of lumber an inch thick, through which had grown a dandelion root, was found in a lumber yard.

Canadians Like Eggs

The Canadian bureau of statistics estimated that Canadians lead all people of the world in the consumption of eggs. The per capita consumption is approximately 400 eggs a year.

Study Sun's Energy

Scientists of Massachusetts Institute of Technology have been financed for a 50-years' search and experimentation to develop a means of converting the Sun's energy into a driving force for machinery.

With Sally

(Continued from Page 1)

million cows being needed to produce this amount of milk.

What the Encyclopedia forgot: Farmers Market sells perfectly wonderful ice cream, all flavors, for only 15 cents a quart.

Modern - -Hmm?

Soy beans have been used as a food in China for thousands of years. Archaeological remains show that the wild soy bean was in use at least 25,000 years ago. Written records of its use go back at least 5,000 years. Emperor Shen-Nung in 2838 B. C. listed 300 ways in which soy products were good for human ailments.

Human ailments can't always be patched up with soy beans. At least we don't think so. We knew a man with a broken heart once and the only thing that helped him at all was seeing Marlene Dietrich in the movies. That's why we're going to the Daly City theatre Sunday night.

Pretzels

As strange as it may seem the shape of a pretzel is supposed to represent folded arms in attitude of prayer. Pretzels were originally given by priests to well behaved children.

We don't know who got the worst of it, the priests or the children. But we do know that you can get the best of everything if you take your car down to Carr's Service Station for their 75c winter special . . . everything included except pretzels.

Beginners' Luck

The Earl of Sandwich is said to have made the first sandwich. Being unwilling to quit a gambling table while winning and becoming very hungry, he put a chunk of meat between two slabs of bread to eat while continuing his game. Thus, sandwiches were discovered.

Wonder when he took time off to send his clothes to the cleaners? Did you know that Daly City Cleaners feature a four-hour service? That's quicker than sandwiches.

For Good Biscuits

A more flaky baking powder biscuit will result if the flour and shortening are not too finely mixed. Flours vary in the amount of liquid they will absorb, therefore, it is best to reserve a part of the liquid until apparent whether it is needed.

Fiddlesticks! It is best to buy your biscuits down at Geneva Bakery and save yourself all that fuss and bother and flour on the floor.

Plymouth Rock

The New England fishing industry was originally established by Basque fishermen who crossed the ocean about 1500. By 1700 New England was exporting codfish valued at $700,000.

Shush, we always thought the Pilgrim Fathers lived on corn and wild turkey. We're so disillusioned we're going up to Milo's Market and comfort ourselves with some nice fresh codfish . . . we're hungry, too.

Fruit Cocktail

Grapefruit or orange juice combined with equal parts of ginger-ale makes a delicious cocktail to serve as a first course.

And if your guests never come back, don't blame us, blame the Encyclopedia. However, if you're still game to try it, we'd suggest you get sweet ripe oranges from Daly City Cut Rate Market. They'll save the day if anything will.

We'll Call The Police!

The old Romans became such a glutonous lot when Rome was at the height of its power that laws were passed against overeating. It became illegal to give or eat sumptuous feasts.

That shows what can happen in a dictatorship, says John. He always had a grudge against Julius Caesar anyway, because Caesar didn't use good old plain English when he was writing up his wars. If Caesar had had one of those nice new desks from the Metropolitan Appliance company we think he might have done better.

Saves Work, Too!

Putting vegetables into boiling instead of cold water when cooking cuts down the mineral and vitamin losses. Vegetables should always be cooked in as little water as possible and this should be saved for soups and gravies. Leave the peel on potatoes, root and tuber vegetables.

Imagine anything as respectable as an encyclopedia trying to tell you to eat potato peelings! Or squash peelings! Westlake Market's vegetables do look good enough to consume whole, but some one else will have to start the fashion.

Dent-al Measures

It is a wise idea to keep all canned goods in cool, dry places. A can that shows a bulge or leak should never under any circumstances be used. Dents in cans are harmless.

Yes, but dents in automobiles aren't harmless. That's why everyone should hurry down to Mather Brothers to get the new approved reflectors.

Swiss Cheese

The size of the holes in Swiss cheese indicates the quality of the cheese. Eyes that are about the size of cherries are found in the finest quality. Another indication of quality is a shiny surface.

You know something else that has a shiny surface? Those beautiful new portable radios at Byrne's! And they haven't holes in them, either.

Farmerette

The first real agriculturist is believed to have been a woman of Syria, who lived between 6,000 and 5,000 B. C. Under the impetus of hunger caused by a crowded population she collected wild barley seeds and sowed them on the hillsides in order to get foodstuffs.

That's what we always tell John, that women are smarter than men. And John says well, if she was so smart, why didn't she invent a Lucca Ravioli store where you can buy barley for $1.09 a sack without fooling around on the hillsides. But he's just jealous, that's all.

Walnuts

Several centuries ago walnuts were believed to be good for mental ailments and were used as "brain medicine." The belief grew from the fact that walnut shells are shaped like the human skull and the meats like the brain.

We tried this out on John, but it didn't work at all. We finally had to say right out, "John why don't you go down to Acton Barber Shop where they will give you Electric Lather Service?" He did, and he likes it so well that we've given all our old walnuts away.

Honey

Ohio produces 20,000,000 pounds of honey a year, most of this being clover honey. Production is on so scientific a basis that the bees are supplied with combs for the honey, thus do not have to "make their own."

Honey is terribly hard to get

(Continued on Page 7)

CONCERTS

Gladys Swarthout To Appear Feb. 5

Gladys Swarthout, mezzo-soprano of the Metropolitan Opera association, screen and radio star, is the next celebrity on the Winter Series of the San Francisco Opera association, booked to appear in a single concert at the War Memorial Opera House, Wednesday night, February 5.

The story of the rise of Gladys Swarthout from the position of a humble country girl singing in a Kansas City church choir to that of one of the most popular prima donnas on the operatic stage today is one of the romances of modern music.

Miss Swarthout explains it all in a combination of "lucky breaks" and hard work. She was a church soloist at 13. Later she was to go to Chicago and become the protege of the famous Mary Garden. In a few short weeks she learned twenty-three operatic roles for her season with the Chicago Opera company. From Chicago she was called to the Metropolitan, where she has been singing for the past ten years.

For her San Francisco concert Miss Swarthout will offer some of the best of her unlimited repertoire, works from the classics, arias from the operas in which she has starred and songs by American composers.

Two more concerts remain on the Winter Series—Marian Anderson, Tuesday evening, February 11 and Vladimir Horowitz, Thursday evening, February 13. Tickets for all concerts are now on sale at Sherman Clay and Co.

Peace or War

Speaking of shot and shell, Diego Carrales Noya, Spanish civil war veteran, found peace deadlier than war. Noya went through the entire conflict without even a scratch. But upon returning to peacetime pursuits he got himself a job, was killed five hours later when a rock fell on him.

Drop Cookies Appeal

By Frances Lee Barton

THERE are "drops" that mean bad weather.
There are "drops" that mean poor stock.
There are tear "drops" that mean sadness.
There are "drops" from roof or dock.
But the "drops" I now refer to
Are pineapple cookie "drops."

As a lunch-box treat or evening "snack."
These little "drops" are "tops."

Pineapple Drop Cookies

2¼ cups sifted cake flour; 1½ teaspoons baking powder; ¼ teaspoon soda; ½ teaspoon salt; ⅔ cup butter or other shortening; 1 cup brown sugar, firmly packed; 2 eggs, unbeaten; ¾ cup canned crushed pineapple, well drained; 1 teaspoon vanilla.

Sift flour once, measure, add baking powder, soda, and salt, and sift again. Cream butter thoroughly, add sugar gradually and cream together until light and fluffy. Add eggs, one at a time, beating well after each. Add pineapple and vanilla. Add flour, a small amount at a time, beating after each addition until smooth. Drop from teaspoon on ungreased baking sheet. Bake in hot oven (400° F.) 10 minutes, or until done. Makes about 4 dozen cookies.

Look Out Below

An object dropped from a cliff a mile high will take about 19 seconds to reach the earth.

Catholic Ladies Aid Sponsor Benefit Whist

Catholic Ladies Aid Society, Branch 59, will sponsor a benefit whist party next Wednesday afternoon, February 5, at St. Michael's hall, 32 Broad street.

Mrs. T. Curtin, chairman, cordially invites everyone to attend this party. Playing begins at 2 p. m. There will be a cash first prize and numerous other awards.

El Carmelo Officers Sponsor NDGW Whist

Many valuable prizes will be awarded at a whist party next Wednesday evening at Masonic hall. The event is sponsored by newly-installed officers of El Carmelo Parlor No. 181, Native Daughters of the Golden West.

Playing will begin at 8:30 p. m., February 5, with Mrs. Christine Hulme as chairman. The public is cordially invited to attend.

Impulses Influence Life

It is much easier to act firmly and bravely under a strong impulse than it is to restrain an impulse when called upon to do so. Of all the battles of life there is not one that requires so much real courage as that silent battle with self, which every dutiful person finds it frequently necessary to wage.

Amber Hunting

One of the oldest attractions of the Baltic is still an attraction—namely, picking up amber on the coast of Lithuania, the "land of northern gold," known to early Greeks and Romans.

"UNIVERSITY TEA" is the name of this warm pink and black crepe frock with bright gold and rhinestone flamingo pin, worn by Bonnie Donahue of Columbia network's "Crime Doctor" program. It is a perfect model at this time of year to brighten up the college girl's wardrobe, as well as her older sister's. The matching pink satin turban with fly-away ends is a Lily Dache original. (University Frock, 875.)

War Casualties Listed

First casualties of the next war were the hens of Joe Mikulich, and he wants to know what the government is going to do in the way of reparations. While limbering up for Armageddon, if and when it comes, the field artillery of the California National Guard planted an explosive shell in Joe's chicken coop near San Pablo. There was heavy loss of life among the feathered noncombatants, and the survivors, suffering from shell shock, have not laid an egg since.

Arbitrary Date Line

The International Date Line is an irregular line which is drawn somewhat arbitrarily on the map of the Pacific ocean, near the 180th meridian of longitude. This line marks the place where navigators "change their date" on the trans-Pacific voyage. The line is drawn on the map in a general north-and-south direction, separating the islands of the Pacific ocean in such a manner that all those in the east carry the same date as the United States, and those in the west the same date as Japan and Australia.

Scouting the Shops

(Continued from Page 6)

out of clothes . . . whether the bees make it or some else does. That's why we always call on Beeson Cleaners for first aid for our best clothes when we have honey.

Rummy But Good

Puerto Rico is now canning grapefruit with rum. The rum flavored grapefruit is delicious for desserts and also makes an excellent first course for dinner.

Yes, and something else that's new and good are the pretty stamped pillowcases and such at Family Dry Goods. If you don't believe us, stop in and see!

Bicycle Baby Trailer

An engineering works employee at Ashtabula, Ohio, has devised a "baby trailer" to be attached to bicycles or tricycles. Mike Zalimeni, seeking a patent on his device, says the "knee-action" trailer will enable people to take the baby along on bicycle trips.

Polar FROZEN Foods

STRAWBERRIES - PEACHES - GREEN PEAS - ASPARAGUS TIPS - STRINGLESS GREEN BEANS - GOLDEN BANTAM CORN ON COB - CORN, CUT OFF COB

Why Polar Frosted Foods Are Becoming More and More Popular—

NOT AN OUNCE OF WASTE - - - - -

There is no waste with Polar Frosted Foods—nothing to sort out, to cut off, or to throw away. Polar Frosted Foods are economical because you pay only for what you use. One pound of Polar Frosted peas, for instance, is equal to 3½ pounds of peas in the pod. One pound of Polar spinach equals 2 pounds of fresh spinach.
